The numbers that matter most are the ones nobody shares. This course reveals them.

Using Carta's proprietary data on 40,000+ startups, we'll take a data-driven tour through the startup lifecycle —from co-founder equity splits to IPO—exposing the benchmarks founders won't share and the math investors won't explain.

INVESTMENTS, AUGMENT ·
FORMERLY POINT72

Works on investments at Augment, after years on the institutional investing side including Point72. Brings a public-markets lens to the last stretch of the startup lifecycle: what the IPO actually changes for the people holding equity.

11 THE PUBLIC MARKETS TRANSITION

The IPO isn't the end — it's a transition to a completely different game, and the data on founder and employee outcomes is rarely shown

01 Getting out: IPO, M&A, or neither

02 The IPO is getting rarer, and later

03 What the price does on the way out

04 Tender offers: liquidity before the exit
